A. F. Carr, Jr.
Dept. of Biology
University of Florida
Gainesville, Fla.

My dear Mr. Carr:

Mr. Zinn has awarded you the fellowship you requested in your letter of May 8th.

The subject that you have picked suggests to us that collection problems may be rather complicated. At present the Laboratory has two cars at its disposal. They are kept fairly busy collecting mail, express, and food. We could not promise unlimited use of these cars. Should your problem demand a great deal of outdoor work and use of transportation, we would be glad to supply whatever gasoline and oil is necessary in case you bring your own transportation.

It would facilitate us in preparing collection methods if it were possible for you to come down and talk the matter over with us next week-end (18th to the 22nd of May). Should you be able to come, kindly wire us, collect, the date of your arrival. If you arrive by train we can meet you at Venice, Sarasota, or Punta Gorda, as you specify.

Yours truly,

John F. Bass, Jr.
