August 15, 1939.

Dear Skipper:

Ammie has just contacted me and wants to set forth a full and coherent statement of fact about why he wants you to go on his note for him.

Firstly, the note is for $100.00 to pay for the items listed below.

1. Part to pay a grocery bill so that he can eat some more and to keep up his strength to fish.

2. Sixty dollars is to buy a net so that he can go fishing so that he can make some money so that he can eat out of cash assets and to pay the note off when he makes a hundred dollars.

This is a full summarization to date and he is just about busting out of his pants to get some kind of an answer. The fishing on shares around hasn't been very good and Ammie thinks that he can come out ahead.

Please give me the dope as soon as possible and I'm putting on enough postage at this end--there must be goats along the air routes someplace that like the taste of government glue.

I still hurt but not so much.

Yours,
